

## Q1 Where should healthcare legislation focus first?

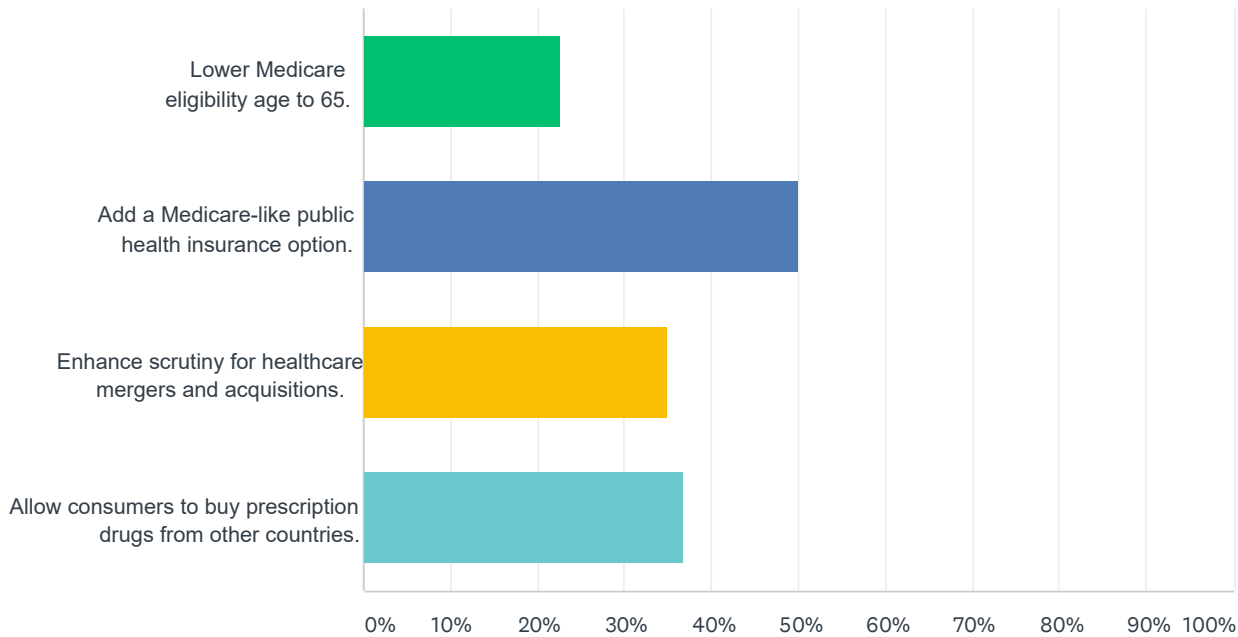

ANSWER CHOICES	RESPONSES
Expand the ACA.	24.59%
Establish a Public Option.	16.39%
Reduce Drug Prices.	30.33%
Close the Medicaid gap.	17.21%
Establish a Transition to Medicare-for-all.	11.48%

Q2 Should the Democrats reorganize the US Senate to eliminate the legislative filibuster so that, with 51 votes, urgent legislative initiatives of greatest significance for US healthcare may be swiftly enacted?

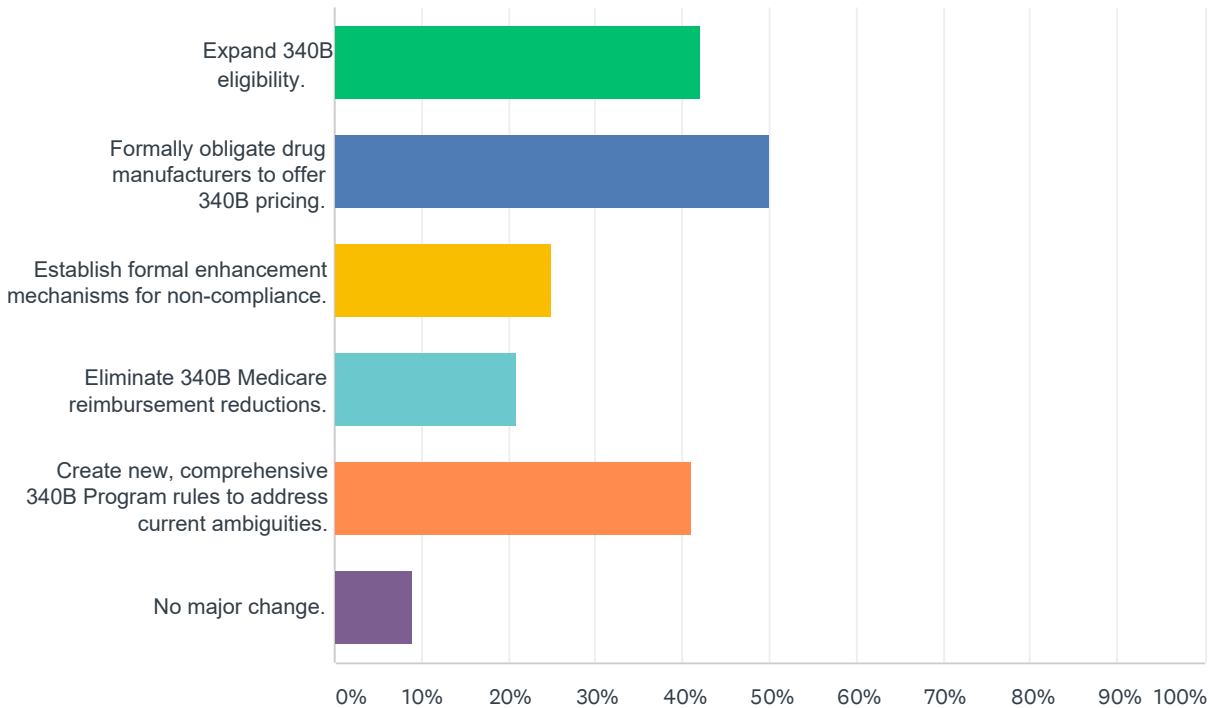

ANSWER CHOICES	RESPONSES
Yes.	33.60%
No.	48.00%
Unsure.	18.40%

Q3 Beyond gaining control of the Pandemic, which of President-elect Biden’s proposed healthcare initiatives will most likely be enacted (through legislation, regulation, executive order, or enforcement discretion) ? [Select all that apply]

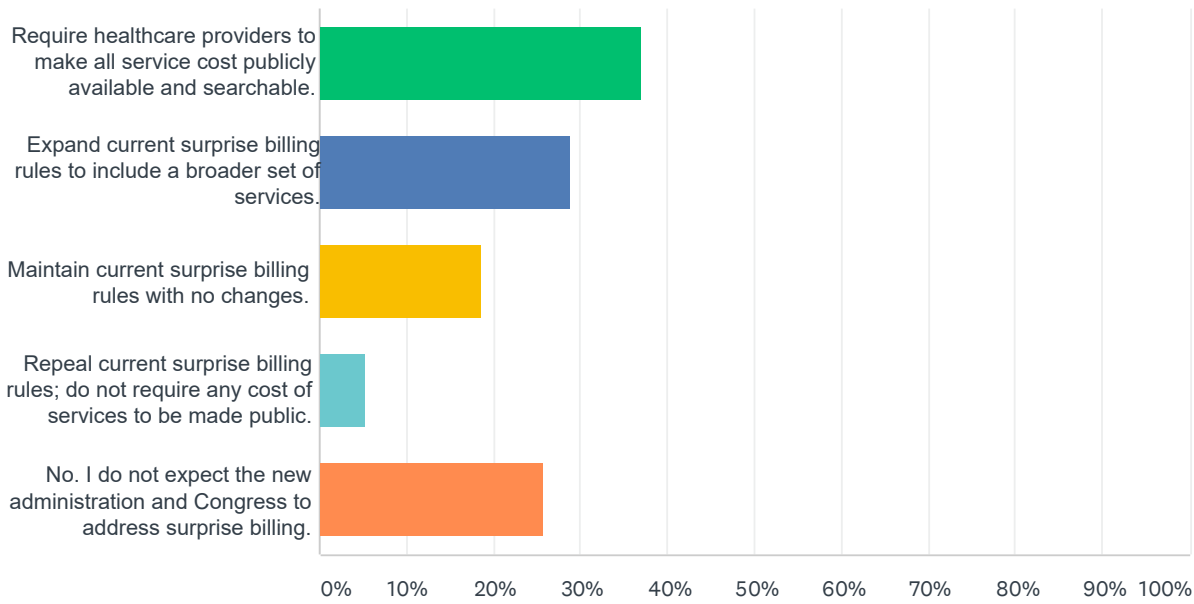

ANSWER CHOICES	RESPONSES
Lower Medicare eligibility age from 65.	22.64%
Add a Medicare-like public health insurance option.	50.00%
Enhance scrutiny for healthcare mergers and acquisitions.	34.91%
Allow consumers to buy prescription drugs from other countries.	36.79%

Q4 The Biden administration is expected to advocate for 340B Program policies favorable to hospitals. Which of the following 340B Program changes do you expect to occur? [Select all that apply]

ANSWER CHOICES	RESPONSES
Expand 340B eligibility to more patients, pharmacies, and healthcare entity types.	42.00%
Formally obligate drug manufacturers to offer 340B pricing.	50.00%
Establish formal enforcement mechanisms for non-compliance.	25.00%
Eliminate 340B Medicare reimbursement reductions.	21.00%
Create new, comprehensive 340B Program rules and regulations to address current ambiguities.	41.00%
No major change. Current 340B regulations should remain ambiguous and decided through lawsuits and the HHS alternative dispute resolution process.	9.00%

### Q5 Will the new administration and Congress address surprise billing? If so, how? [Select all that apply]

ANSWER CHOICES	RESPONSES
Require healthcare providers to make all service costs publicly available and searchable.	37.11%
Expand current surprise billing rules to include a broader set of healthcare services that must be publicly available.	28.87%
Maintain current surprise billing rules with no changes; require healthcare providers to make costs publicly available for select services.	18.56%
Repeal current surprise billing rules; do not require any cost of service to be made public.	5.15%
No. I do not expect the new administration and Congress to address surprise billing.	25.77%
